The Power of The MasterMind Group

We must leverage others through organized plans, action and the use of the MASTERMIND Principle.

“Coordination of knowledge and effort, in a spirit of harmony, between two or more people, for the attainment of a definite purpose.” Napoleon Hill, Think & Grow Rich, 1937

Economic advantages happen when we surround ourselves with people who can give advice, counsel and personal cooperation in the execution of our plans.

“No two minds ever come together without, thereby, creating a third, invisible, intangible force which may be likened to the third mind.”

When the minds of two people are coordinated in a SPIRIT OF HARMONY, the spiritual units of energy of each mind form an affinity. This is the psychic energy of the MasterMind.

The human brain is like a battery, receiving energy from the ether, which permeates every atom of matter, and fills the entire universe.

When a group of individual brains are coordinated and function in Harmony, the increased energy created through that alliance, becomes available to every individual brain in the group.
